

ANNUAL REPORT 2024–2025

Green Ahom Federation

“Working Towards Sustainable Development, Human Dignity & Community Empowerment”

Organizational Overview

Green Ahom Federation continued its humanitarian and developmental journey during the Financial Year 2024–25 by implementing multiple health, nutrition, environmental, women empowerment, rural development, animal welfare, and community support programmes across various districts of Assam.

The organization worked extensively among vulnerable populations including tuberculosis patients, economically weaker households, women, children, elderly citizens, rural communities, and stray animals. Through grassroots participation, volunteer support, and community engagement, the organization successfully reached thousands of beneficiaries across Cachar, Hailakandi, Karimganj, Barpeta, Nalbari, Nagaon, and NC Hills districts.

The year reflected the organization's strong commitment towards sustainable development, healthcare accessibility, social welfare, and inclusive community empowerment.

Message from the Director

It gives me immense pleasure to present the Annual Report of Green Ahom Federation for the Financial Year 2024–25. This year has been a remarkable journey of service, commitment, compassion, and collective effort towards the welfare and empowerment of vulnerable communities across Assam.

During the year, our organization continued to work tirelessly in the areas of healthcare support, nutritional assistance, women empowerment, environmental sustainability, rural infrastructure development, humanitarian relief, and animal welfare. Through various impactful programmes, we were able to extend our support to economically weaker sections, tuberculosis patients, women, children, elderly persons, rural communities, and stray animals across multiple districts.

One of the major highlights of this year was the successful implementation of nutritional food packet distribution programmes for tuberculosis patients in Patharkandi Block of Karimganj District. The initiative significantly supported patients undergoing treatment by improving their nutritional intake and encouraging better recovery outcomes.

Our healthcare interventions also included eye camps, spectacle distribution, and cataract surgery support programmes conducted in Hailakandi District. These programmes brought meaningful changes in the lives of many elderly and underprivileged individuals by restoring vision and improving quality of life.

Women empowerment remained one of our strongest priorities during the year. Skill development and handicraft training programmes conducted across Cachar, Hailakandi, Nagaon, NC Hills, Algapur, and Lakhimpur areas helped women and youth gain vocational skills, improve confidence, and create livelihood opportunities for sustainable economic development.

Environmental conservation initiatives through plantation drives in schools and government office premises encouraged community participation and awareness regarding ecological sustainability and climate responsibility.

The organization also undertook humanitarian food distribution programmes for eliminating hunger among vulnerable populations across several districts of Assam. These initiatives provided essential relief and nutritional support to economically weaker families and daily wage earners facing hardship.

In addition, our animal welfare programmes focusing on feeding and medical support for stray and vulnerable animals reflected our commitment towards compassion and humane responsibility towards all living beings.

The construction of community centres in Barpeta, Cachar, and Hailakandi districts further strengthened community infrastructure and created opportunities for social, educational, and developmental activities at the grassroots level.

These achievements would not have been possible without the sincere dedication of our volunteers, staff members, healthcare professionals, trainers, community leaders, supporters, and partner organizations. I extend my heartfelt gratitude to every individual and institution who contributed towards the successful implementation of our programmes during the year. As we move forward, Green Ahom Federation remains committed towards building an inclusive, healthy, sustainable, and empowered society through continued humanitarian service and community development initiatives.

Together, we can continue creating meaningful and lasting social impact.

With Warm Regards,

Director

Vision

To create a healthy, empowered, sustainable, and compassionate society where every individual has access to dignity, healthcare, nutrition, livelihood opportunities, and environmental security.

Mission

- To support vulnerable communities through humanitarian interventions.
- To improve access to healthcare and nutrition.
- To empower women and rural communities through skill development.
- To strengthen environmental awareness and sustainability.
- To promote community welfare and social inclusion.

Operational Areas

Programmes were implemented across:

- Cachar
- Hailakandi
- Karimganj
- Barpeta
- Nalbari
- Nagaon
- Dima Hasao

1. Nutritional Food Packets Distribution to TB Patients

Patharkandi Block, Karimganj District

Budget: ₹14,45,000

Programme Overview

Tuberculosis patients from economically disadvantaged backgrounds often suffer from severe nutritional deficiencies, directly affecting their immunity and recovery process. Recognizing the importance of nutritional support during treatment, Green Ahom Federation implemented a nutritional food packet distribution programme in Patharkandi Block of Karimganj District.

The programme aimed to improve the nutritional status of TB patients and reduce the economic burden faced by vulnerable households during prolonged medical treatment.

Activities Conducted

- Identification of TB patients through community coordination.
- Distribution of nutritional food packets.
- Awareness sessions regarding nutrition and TB care.
- Follow-up interaction with beneficiaries and families.

Nutritional Materials Distributed

The packets included:

- Rice
- Pulses
- Cooking oil
- Protein supplements
- Nutritious food products
- Essential dietary materials

Impact Generated

The intervention generated significant positive outcomes:

- Improved nutritional support for TB patients.
- Better treatment adherence and recovery support.
- Reduction in household financial stress.
- Enhanced awareness regarding healthcare and nutrition.
- Increased emotional support and community confidence.

2. Eye Camp – Spectacles Distribution for Refractive Error Programme

Budget: ₹2,69,750

Programme Overview

Uncorrected refractive errors remain a major challenge among rural populations where access to eye care services is limited. Poor vision affects education, livelihood, mobility, and quality of life.

To address this issue, Green Ahom Federation organized eye screening camps and spectacle distribution programmes in Lala Block of Hailakandi District.

Activities Conducted

- Vision testing and eye examinations.
- Identification of refractive errors.
- Spectacle prescription and distribution.
- Awareness regarding preventive eye care.

Impact Generated

- Improved eyesight among beneficiaries.
- Better educational performance among students.
- Increased mobility and independence among elderly persons.
- Improved work productivity among daily wage earners.
- Enhanced awareness regarding eye health.

3. Eye Camp – Cataract Surgery Support Programme By ONGC Silchar CSR

Lala Block, South Hailakandi Block & Algapur Block

Budget: ₹1,59,590

Programme Overview

Cataract-related visual impairment is one of the leading causes of avoidable blindness among elderly rural populations. Due to financial hardship and healthcare inaccessibility, many elderly individuals remain untreated.

Green Ahom Federation implemented cataract screening and surgery support programmes across multiple blocks of Hailakandi District.

Activities Conducted

- Free eye screening camps.
- Identification of cataract patients.
- Referral and surgery support.
- Community awareness regarding eye care.

Impact Generated

- Restoration of vision among elderly beneficiaries.
- Improved confidence and mobility.
- Reduction in avoidable blindness.
- Better healthcare awareness among rural populations.

4. Street Light Installation Programme

Dholai & Sonai Rural Areas, Cachar District

Budget: ₹6,60,000

Programme Overview

Many rural and remote areas face challenges due to inadequate lighting infrastructure, affecting safety, transportation, and mobility during nighttime.

Green Ahom Federation distributed street lights in remote villages of Dholai and Sonai Blocks to improve rural accessibility and safety.

Activities Conducted

- Identification of vulnerable locations.

- Distribution and installation support for street lights.
- Community engagement and maintenance awareness.

Impact Generated

- Improved nighttime visibility.
- Enhanced safety for women and elderly citizens.
- Better rural mobility and transportation support.
- Increased community convenience and security.

5. Skill Training Programme for Women

Cachar, Hailakandi, Nagaon
& NC Hills Districts

Budget: ₹32,82,000

Programme Overview

Women empowerment through vocational and livelihood training remains one of the core objectives of Green Ahom Federation. During FY 2024–25, large-scale skill development programmes were organized across multiple districts of Assam.

The programme aimed to enhance economic independence, vocational capability, and self-employment opportunities among women.

Training Components

- Tailoring and stitching
- Embroidery and handicrafts
- Entrepreneurship training
- Financial literacy
- Livelihood management

Impact Generated

- Improved livelihood opportunities for women.
- Increased self-confidence and self-reliance.
- Enhanced family income generation capacity.
- Promotion of women entrepreneurship.
- Strengthened social inclusion and empowerment.

6. Plantation Drive Programme

Hailakandi, Cachar & Karimganj Districts

Budget: ₹3,28,000

Programme Overview

Environmental sustainability and ecological awareness are essential for long-term community wellbeing. Green Ahom Federation organized plantation drives in schools and government office premises to encourage environmental responsibility and green practices.

Activities Conducted

- Tree plantation drives.
- Environmental awareness sessions.
- Community participation campaigns.
- Plantation maintenance initiatives.

Impact Generated

- Increased environmental awareness.
- Promotion of ecological sustainability.
- Encouragement of community participation.
- Improvement of green cover in public spaces.

7. Food Distribution Programme for Eliminating Hunger

Hailakandi, Cachar, Nalbari & NC Hills Districts

Budget: ₹46,06,060

Programme Overview

Food insecurity and hunger continue to affect economically vulnerable communities, especially daily wage earners, elderly individuals, and poor households.

Green Ahom Federation implemented a large-scale humanitarian food distribution programme across multiple districts to support needy communities and reduce hunger-related hardships.

Activities Conducted

- Distribution of dry ration kits.
- Community food support programmes.
- Emergency food assistance.
- Humanitarian outreach activities.

Beneficiary Groups

- Daily wage earners
- Poor households
- Elderly persons
- Widows and vulnerable women
- Children from economically weaker families

Impact Generated

- Reduction in temporary food insecurity.
- Improved nutritional support among vulnerable populations.
- Humanitarian relief during economic hardship.
- Strengthened social solidarity and compassion.

8. Animal Feeding & Medical Support Programme

Barak Valley Districts

Budget: ₹35,41,090

Programme Overview

Animal welfare remains an important humanitarian responsibility. Green Ahom Federation conducted extensive animal feeding and veterinary medical support programmes across Barak Valley districts for stray and vulnerable animals.

Activities Conducted

- Feeding of stray animals.
- Veterinary medical support.
- Rescue assistance for injured animals.
- Distribution of medicines and food.

Impact Generated

- Improved wellbeing of stray animals.
- Increased public awareness regarding animal welfare.
- Support for injured and sick animals.

- Promotion of compassion and humane practices.

9. Community Centre Construction Work

Borkhola Block Cachar & Algapur Block Hailakandi.

Budget: ₹42,37,000

Programme Overview

Community infrastructure development plays an important role in social welfare, education, training activities, and rural development.

Green Ahom Federation undertook community centre construction projects in Barpeta, Cachar, and Hailakandi districts to strengthen community infrastructure and support local developmental activities.

Construction Locations

- BH College, Howli, Barpeta
- Borkhola Block, Cachar
- Algapur Block, Hailakandi

Impact Generated

- Improved community infrastructure.
- Better accessibility for social programmes.
- Spaces created for meetings, training, and welfare activities.
- Strengthened community engagement and participation.

10. Skill Training on Handicraft Programme

Chandipur Village under Algapur Block in Hailakandi & Lakhipur Village, Cachar District

Budget: ₹12,68,000

Programme Overview

Traditional handicrafts continue to serve as important livelihood sources for rural communities, especially women and youth. Green Ahom Federation organized handicraft skill training programmes to preserve traditional skills and improve livelihood opportunities.

Training Components

- Handicraft production techniques
- Traditional craft skills
- Product finishing and design
- Entrepreneurship and marketing guidance

Impact Generated

- Preservation of traditional handicraft skills.
- Improved livelihood opportunities.
- Economic empowerment of women and youth.
- Promotion of local culture and rural entrepreneurship.

Programme Impact Summary

During FY 2024–25, Green Ahom Federation successfully implemented multiple impactful programmes across Assam, directly benefiting vulnerable populations through healthcare, nutrition, environmental sustainability, women empowerment, humanitarian assistance, rural infrastructure, and animal welfare initiatives.

The programmes contributed towards:

- Improved healthcare accessibility
- Better nutrition and food security
- Women empowerment and livelihood promotion
- Environmental conservation
- Rural infrastructure development
- Animal welfare support
- Community participation and social inclusion
